

Company Profile

July, 2012

Index

1. Introduction

History/Organization

2. Products

Piston Seals, Rod Seals, Wiper Seal, Wear Rings etc.

3. Production

MFG Process/Production Capacity

4. Business Status

Customers /Certification

1. Introduction

History

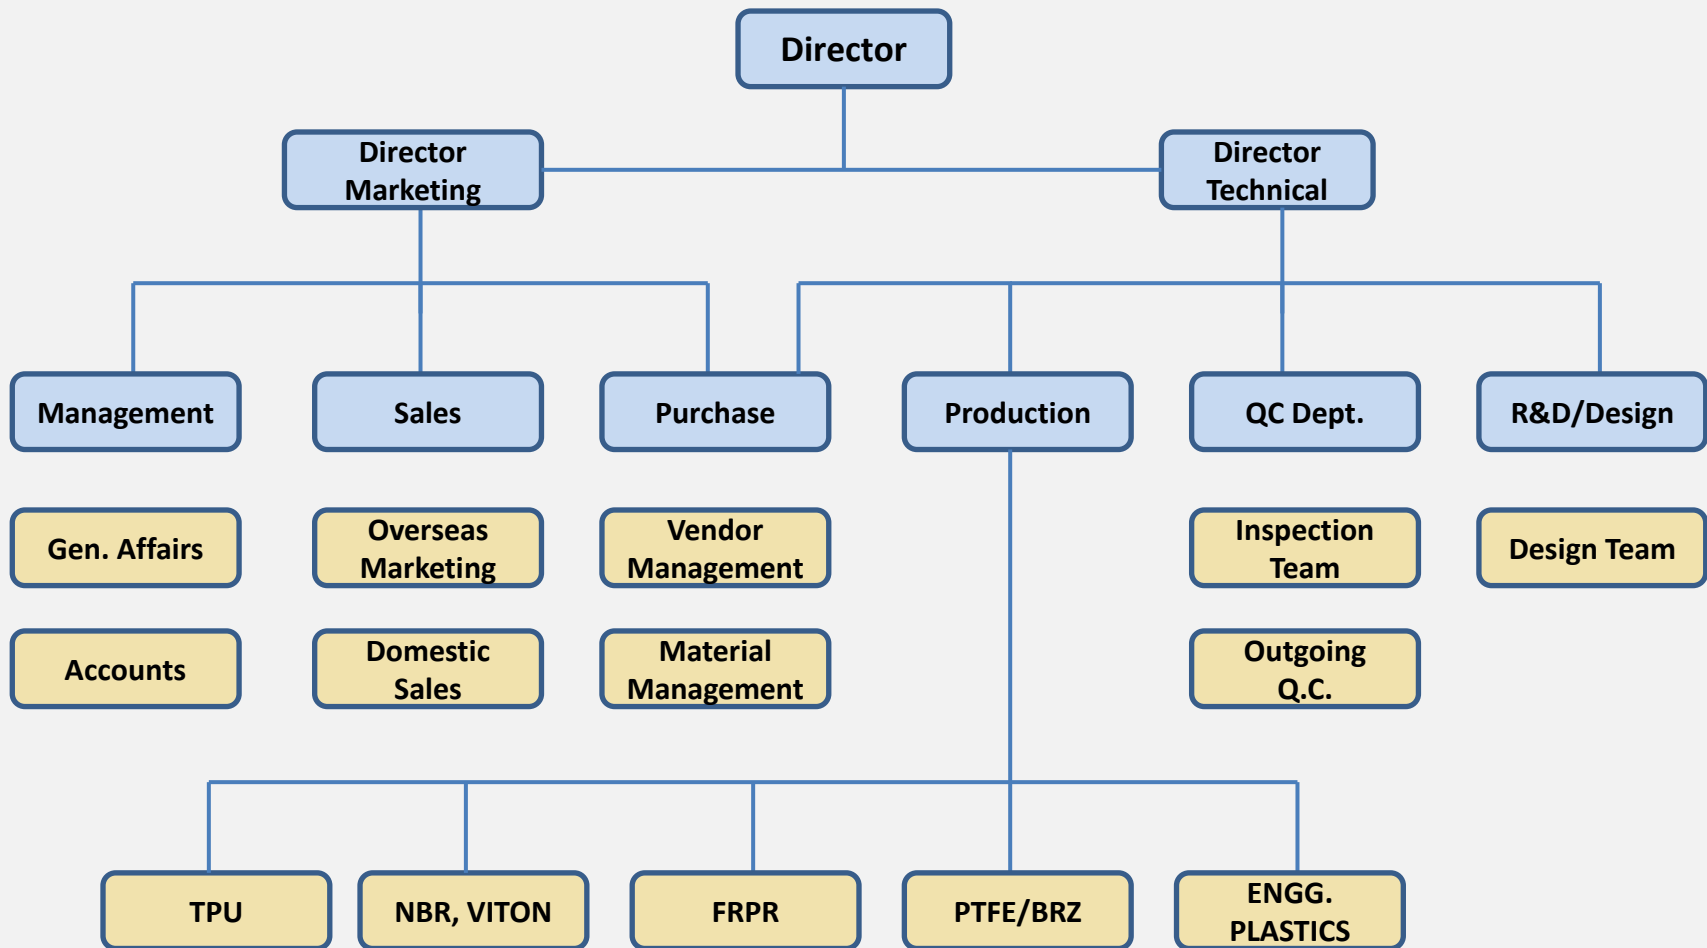

- Establishment: December 2003
- President: Mr. R. C. Toshniwal
- Capital : US \$ 1.0 Million
- Assets : US \$ 2.1 Million
- Sales Volume : US \$ 5.0 Million per annum
- Total Manpower: 125 persons
- Application:
 - » Hydraulic Cylinder: Seals & Wear Ring
 - » Pneumatic Cylinder: Seals & Wear Ring
 - » SPM: PTFE and Rubber components

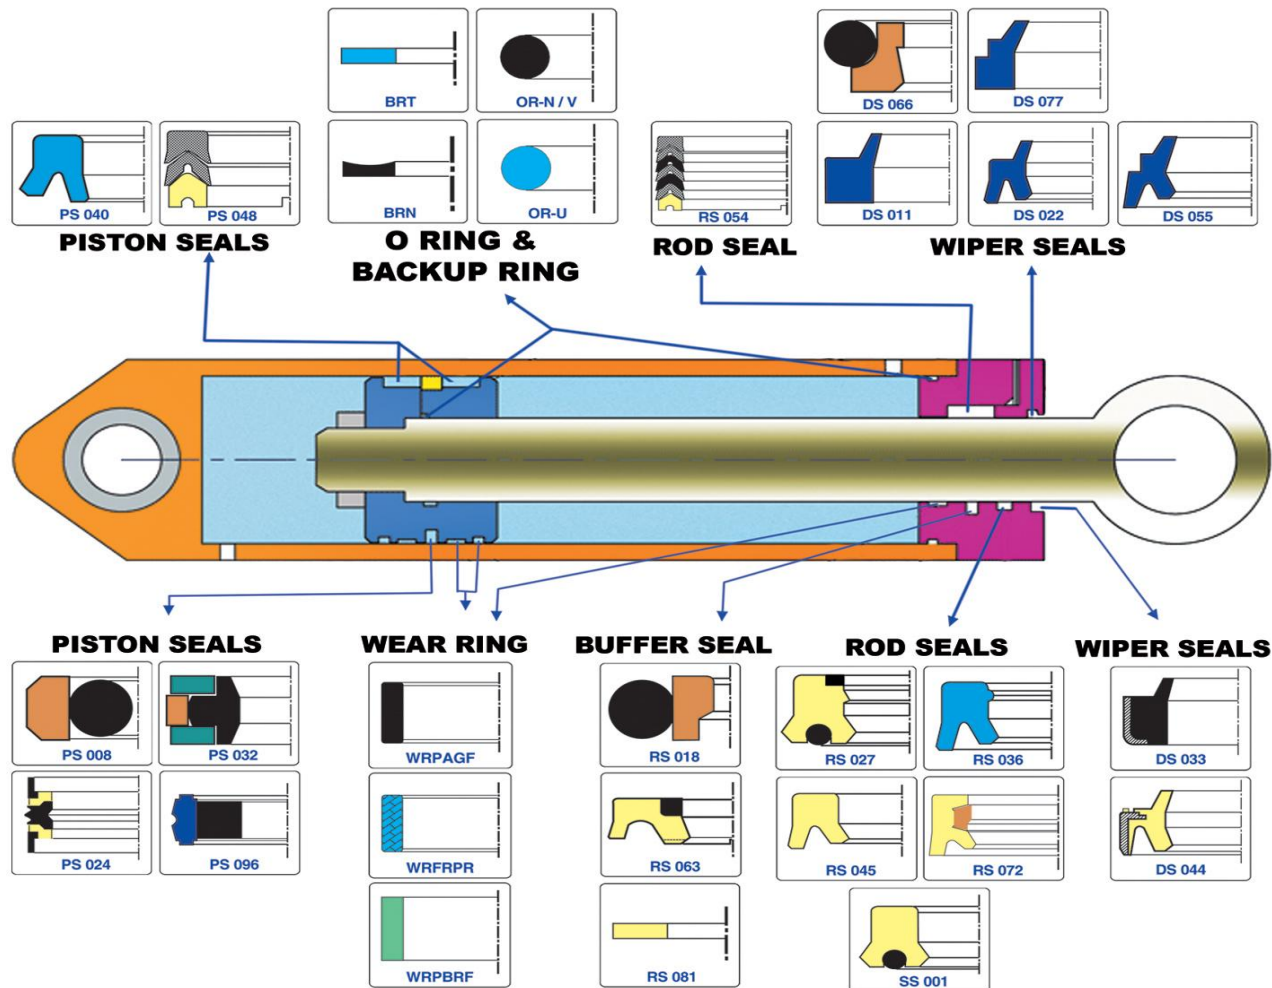

Royal : Unit 1

1. Introduction

Organisation

2. Products

Piston Seals

Features:

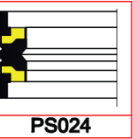

- » Its main function is to seal the Piston not allowing the oil to flow from one side of the piston to the other.
- » Both Single & Double acting Piston Seals for standard ISO grooves.
- » Seal Profiles that can withstand pressure upto 500 bars.
- » Various Seal material that can operate at continuous working Temp. of -30°C to 220°C
- » Range for Imperial sizes for few seal profiles.

2. Products

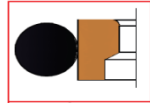

Rod Seals

Features:

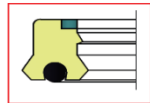

- » Its main function is to seal the Gland not allowing the oil to flow from pressure side of the system to outside the system.
- » Rod Seals for standard ISO grooves of various seal profiles.
- » Seal Profiles that can withstand pressure upto 500 bars.
- » Various Seal material that can operate at continuous working Temp. of -30°C to 220°C
- » Range of Buffer seals to minimise the pressure load on the Rod Seal.

RS054

RS063

RS072

2. Products

Wiper Seals

Features:

- » Its main function is to wipe off any dust particle that might come inside the system along with rod and keep the contamination level to a minimum.
- » Wiper Seals for standard ISO grooves of various seal profiles.
- » Both double lip and single lip Seal profiles.
- » Various Seal material that can operate at continuous working Temp. of -30°C to 220°C

DS044

DS055

DS066

DS077

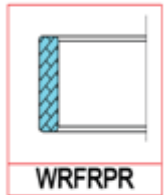

2. Products

Wear Rings

Features:

- » Its main function is to guide the Piston and the Rod and maintain their alignment.
- » They are available in different materials primarily PTFE-Brz, GF-Polyamide, Composites.
- » Different Wear ring Material have different load bearing capacity and are chosen as per the requirement of the system.
- » Seal material that can operate at continuous working Temp. of -30°C to 220°C
- » Wear Rings are available for standard ISO grooves.

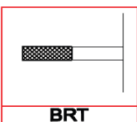

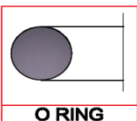

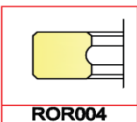

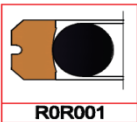

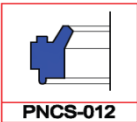

2. Products

Other Seals

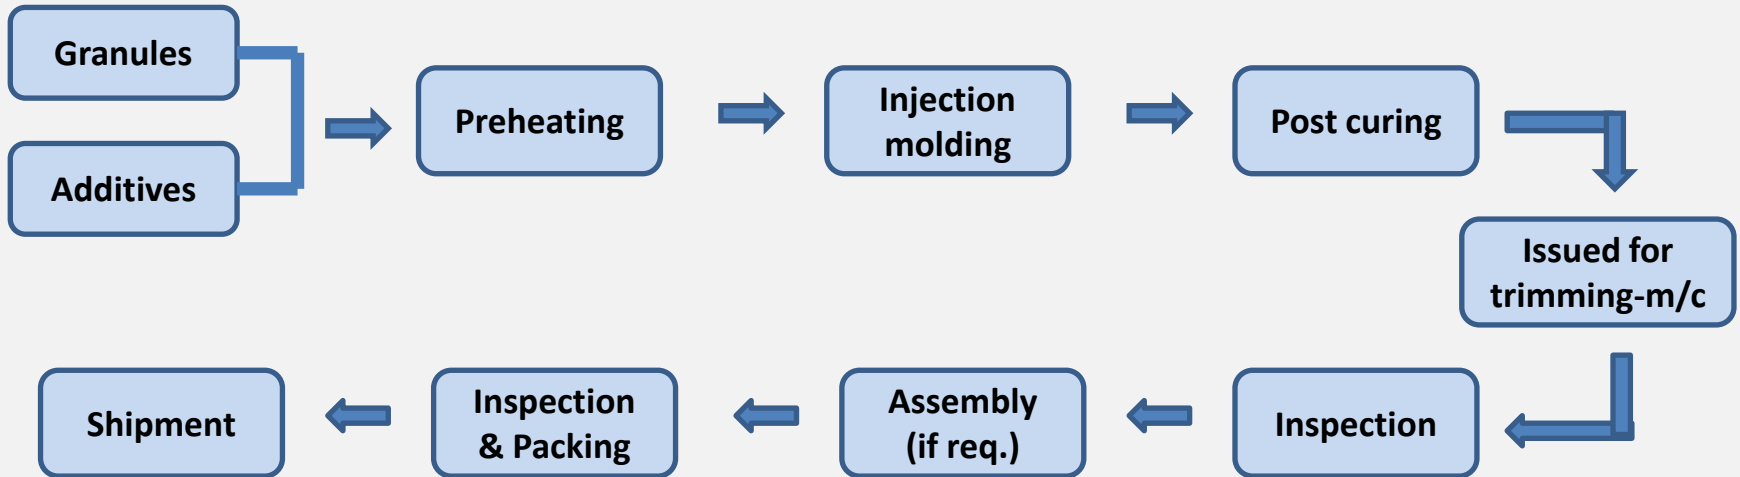

Features:

- » Complete range of O ring and Back ups for both static and dynamic applications.
- » Seal profiles for Piston, Rod and Cushion application for Pneumatics.
- » Seal profiles specially designed for high pressure Rotary applications.
- » Many other seal profiles developed as per design requirement.

3. Production

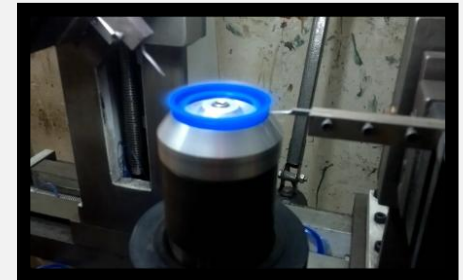

Engg. Plastics

TPU Granules

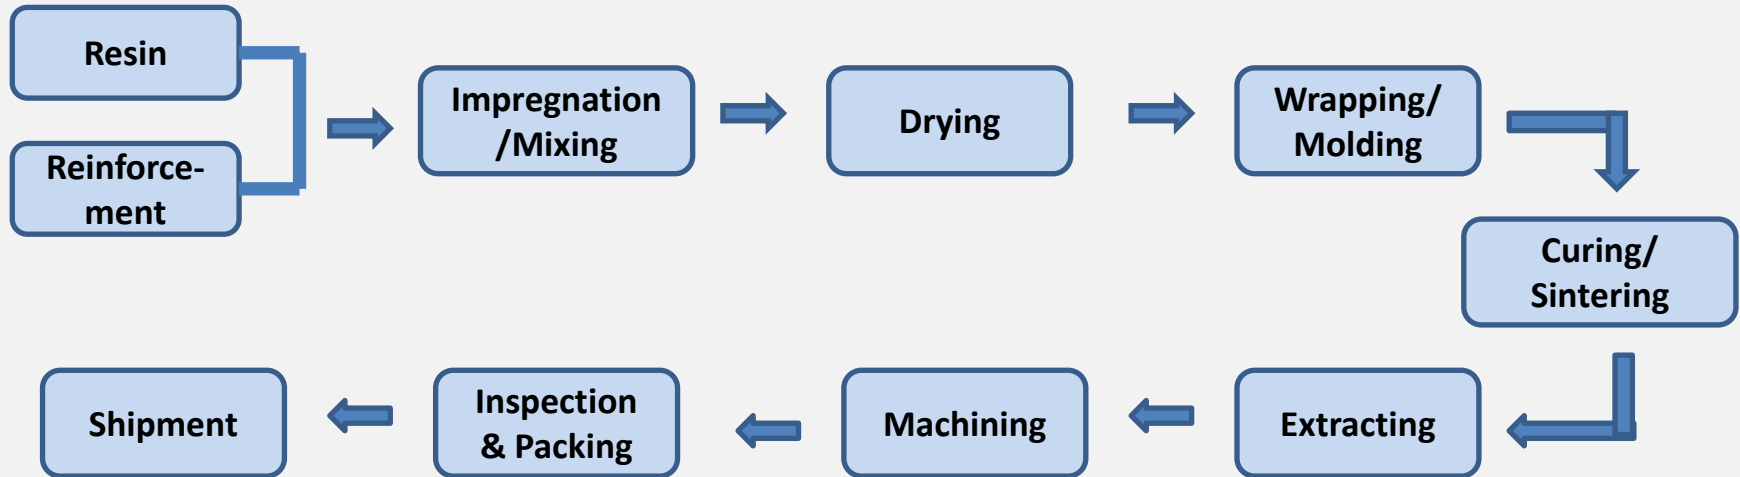

Injection Molding

Trimming M/c

3. Production

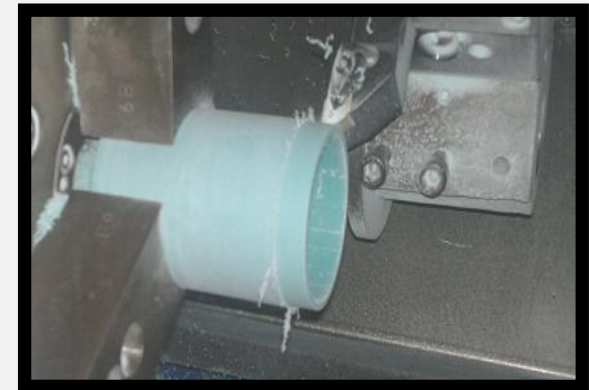

Composites

Molded PTFE-Brz bushes

Curing Oven

Machining on CNC

3. Production

Facilities

Rubber two roll mixing mill

Rubber Moulding

Machining on lathe

CNC machining

Dies and Moulds

>> With the facility to produce more than 10,00,000 pcs per month, Royal is one of the biggest seal manufacturer in the Indian Sub-continent.

3. Production

Inspection/Store

Main Store

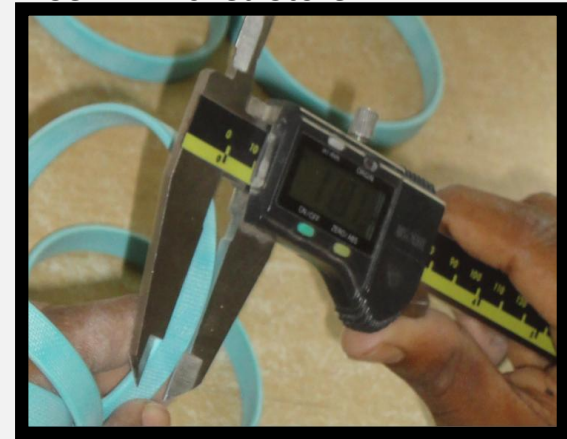

Semi-Finished Store

UTM M/C

Packed material

Inspection

>> Temperature controlled dedicated Store and Inspection department of Royal is spread across more than 30,000 sq. ft.

4. Business Status

Certification

Certificate of Registration

QUALITY MANAGEMENT SYSTEM - ISO 9001:2008

This is to certify that:

Royal Composites Private Limited
Howrah Polypark Near Sankrail Toll Plaza
NH-6, Unit PPH - 4
Village & PO: Kandua, P.S.: Sankrail
Howrah 711 302
West Bengal
India

Holds Certificate No: **FM 580246**

and operates a Quality Management System which complies with the requirements of ISO 9001:2008 for the following scope:

The Design, Development, Manufacture, Marketing and Export of Seals for Hydraulic and Pneumatic Applications.

For and on behalf of BSI:

Managing Director, BSI India, Venkataram Arabolu

Originally registered: **18/10/2011**

Latest Issue: **18/10/2011**

Expiry Date: **17/10/2014**

Page: 1 of 1

This certificate was issued electronically and remains the property of BSI and is bound by the conditions of contract. An electronic certificate can be authenticated [online](http://www.bsi-global.com/ClientDirectory). Printed copies can be validated at www.bsi-global.com/ClientDirectory or telephone +91 11 2692 9000. Further clarifications regarding the scope of this certificate and the applicability of ISO 9001:2008 requirements may be obtained by consulting the organization. This certificate is valid only if provided original copies are in complete set. BSI, The MIRA Corporate Suites (A-2), Plot 1 and 2, Ishwar Nagar, Mathura Road, New Delhi 110065.

Our constant efforts for improvement, appetite for growth, and commitment to quality has led us to adopt latest manufacturing equipments and advanced quality control system. The ISO 9001:2008 certification awarded to our company provides a testimony for the same.
